TESTIMONIALS

"Amanda is a creative force. Her capacity for invention, her attention to detail, her keen understanding of story, and her outmatched kindness make her an expert collaborator and a true joy to work with. You will be thrilled to have her on your production." - **David Weil Showrunner / writer Citadel 2**

"Hugh Howey created the world of the silo. But Gavin Bocquet built it for the show, and Amanda Bernstein brought it to life. She and her brilliantly talented team made an imagined world feel real, matter-of-fact ("of course this is how they live"), and wonderfully alive. You can feel the human spirit, the desire to express, to be as free as possible under trying conditions. If Amanda lived in the silo, she'd be a Flamekeeper, making sure hope and humanity survived." - **Graham Yost Showrunner / writer Silo S1**
